Provide link to the original proposal submitted

I do not think these are related to older pitch proposals but they said I can't get it up for a vote unless I fill out these questions as well as the others, so here they are and what they telling me I need to add.

[AIP-61](#) and [AIP-206](#).

Reason for Return

Describe the reason it was not approved

First AIP I never got any reason why they never allowed it to go up for a vote. 8+ Months went by never got put up for a vote.

Want to have fun and help out the ApeCoin community!

Resubmission Updates

Changes that have been made and why it should now be approved

It is a totally different idea I am only so everything is updated. I am only filling this out because they are telling me I have to.

This is a completely different pitch and idea. I do not even know why the first one never got put up for a vote. All I know is I am pitching to give out NFTs to thousands of people for fun for only \$1. If someone does not see the value in that there is nothing more I can do for them. That on them.

FREE ApeCoin NFT Shields to First 150,000 ApeCoin Holders.

FREE NFT Shields to all BAYC, MAYC, CryptoPunks, Meebits, BAKC, Otherside owners.

FREE Golden ApeCoin NFT Shields to the top 690 ApeCoin Holders.

Goal is to Multi-Link the NFT as wearable weapons in Decentraland, OtherSide, Sandbox and more as we are did with Waifumon.

Author Description (mandatory if the AIP is requesting funds) | A brief background of yourself

I am founder of Waifumon the most owned NFT collection in the world with over 100,000+ owners as well as almost 2 million owners. Also have been active member in the first metaverse Decentraland since 2020. I have sold thousands of in game wearables and see the future of utility of NFTs as a link to digital assets. Enter motivation

Aside for preparing us for war and growing our 120,000 ApeCoin holders to 150,000 I would like to be able to buy part of a Costco hot dog. It has been a dream of mine for quit some time.

APE Foundation, which will serve the ApeCoin DAO community and be governed by it, aims to be the heart of art, gaming, entertainment, and events on the blockchain.

The ApeCoin DAO community will have the power to submit proposals, vote on the most exciting and promising ideas, and make them real.

The guiding values of APE Foundation are:

- Boldness

: We don't shy away from the weird, the hard, or the new. We are boldness by giving record number drops.

- Equality

: One APE equals one APE. We are equality by making sure no APE holder gets left behind why we are trying to help all holders not just top holders.

- Transparency

: Processes and decisions are shared openly with the community. We are Transparency by letting everyone know what we plan to do but also who we are in can see who we are and right through us like water.

- Collective Responsibility

: We leave everything better than we found it. We are Collective Responsibility by holding everyone responsible including our selves and I will make sure to keep updates as I have daily on here and twitter.

- Persistence

: Success is an ouroboros, not a straight line. We are Persistence in the the fact that our first proposal was over 11 months ago and this will be our 3rd and will keep trying until we succeed.

I think we already explained it above on top of this page. Here is a break down of how the \$1 we are requesting will be spent if that helps answer this question. We have already spent tens of thousands of dollars and almost a year now of time on our video ad and assets demos. We used final cut pro, adobe photohsop and blender. We also will asking counting to try to scrape all the wallet numbers but open to alternative ideas. We also use metamask to send each NFT one by one. We are open to alternative ideas as well. We will mabye use javascript or opensea to uplaod the images too. I hope this helps and open to alternative since we have already spent tens of thousands of dollars and this project. Also will be using credit card when it comes to taco bell and costco because they only accept cash right now. Thank you.

Enter steps to implement

Sorry for the confusion but I think these are the same question if I am not mistaken. Above explains what we are trying to do. With our growth of hundreds of thousands of owners with our Waifumon NFTs and Decentraland wearables we plan to use the same methods we have the past several years to do the same execution with this venture. I hope that helps. Thank you.

Enter timeline

It will take several months of wallet scrapping and air dropping one by one. As well as logistics of linking them in all metavers's with the 3D molds. Each metaverse or game has its own unique process and not one alike the other. We have learned this process already with Decentraland by linking our Waifumon gen-2 collection if that helps.
