- 1. Who is the interested party for this collateral application?
- 2. Rocket Pool Pty Ltd.
- 3. David Rugendyke | Project Founder, CTO
- 4. Provide a brief high-level overview of the project, with a focus on the applying collateral token.
- 5. Rocket Pool is an Ethereum 2.0 Proof of Stake infrastructure service.
- 6. rETH is a redemption token representing staked ETH.
- 7. Without a stake pool service, only wealthy network participants who meet the 32ETH threshold are rewarded for validating transactions.
- 8. Rocket Pool democratizes participation in network validation by providing a service which lowers the wealth threshold.
- 9. Abstracting staked ETH as rETH participants are able to retain commodity properties of their stake (transfer of ownership).
- 10. Provide a brief history of the project.
- 2017 Rocket Pool proof of concept based on the specifications released for Casper in the Mauve paper by Vitalik Buterin.
- 12. Today there is a great team working on Rocket Pool passionately alongside a fantastic community. Both have helped Rocket Pool run two public betas with over 50,000 ETH (testnet) staked and hundreds of users participating over the last 1–2 years.
- 13. 2021 With Ethereum 2.0 on the horizon, Rocket Pool is aligning its battle-tested platform to begin staking as a decentralized network.
- 14. Link the whitepaper, documentation portals, and source code for the system(s) that interact with the proposed collateral, and all relevant Ethereum addresses. If the system is complex, schematic(s) are especially appreciated.
- 15. Website rocketpool.net
- 16. Whitepaper
- 17. Link any available audits of the project. Both procedural and smart contract focused audits.
- 18. <u>EDDC</u>-
- 19. Link to any active communities relating to your project.
- 20. Rocket Pool Governance Forum
- 21. Discord Public discussion group
- 22. How is the applying collateral type currently used?
- 23. When rETH becomes available it can be used as a commodity
- 24. Does one organization bear legal responsibility for the collateral? What jurisdiction does that organization reside in?
- 25. Brisbane, Queensland (QLD)
- 26. Where does exchange for the asset occur?
- 27. rETH is currently unlisted.
- 28. It is intended that rETH will be able to be exchanged wherever ETH is exchanged.
