## **Enabling Testnet in MiniPay**

## **Enabling Testnet in MiniPay**

- 1. This is how the homescreen looks like, you can swipe down to get to the next screen.
- 2. Tap the settings icon to open up the settings menu.
- 3. Tap on the "About" option to get to the about screen.
- 4. Tap on the "Version" number until you see the message that you have enabled developer mode.
- 5. If you go back to the settings menu now, you will see an additional option of "Developer Settings" tap on it.
- 6. Now you will see the option to enable testnet! Edit this page Previous Ngrok Setup Next MiniPay Code Library
