Hey everyone,

# Status of Agenda

NOTE: Will continue to add the Agenda as we develop it iteratively as we define the proposals to include

See the [Biweekly Proposal Discussion Agenda with timing (google sheet)](#)

# Logistics

The link to join tomorrow's governance call to discuss the proposal pipeline and notable discussions is on the [governance calendar](#) .

Date:

December 3rd, 2024

Time:

16:00 - 17:00 UTC

Link to join:

[https://meet.google.com/jtd-ngph-cyu](https://meet.google.com/jtd-ngph-cyu)

## Approach:

- The agenda below will be fluid.

- For authors and/or key contributors of these proposals, it would be helpful if you could include a tl;dr / update of your proposal / discussion in the comments so delegates can review them and prepare their questions for the call.

- Since authors of most proposals that are in the voting phase have already gone through tl;dr's and responded to questions in previous sessions, the call will primarily be used to cover 'notable discussions

' on proposals.

# Agenda

### 0. Quick intro to Bi-Weekly Proposals

See the About Biweekly Proposals

[About the BiWeekly Proposals Discussion Call](#) [Biweekly Proposals Discussions Call

](/c/governance/biweekly-proposals-discussions-call/46)

This Bi-Weekly proposal happens every two weeks. Intention To focus on proposals at a high level and for audience to ask questions. Typical Agenda:

Each initiatives has no more than 3-4 minutes with a 1 minute buffer, so that we get 10 total slots. Overall agenda: 5 for people to arrive and quick background, 50 of updates, 5 for buffer.

Topics that can get discussed Includes:

New forum proposals posted since the last call (in the last two weeks) Live Snapshots (Offchain AIPs) Live Tally p…

## B. User Research: Why do people even build on Arbitrum, anyway? @danielo

[Non-consitutional] User Research: Why do people even build on Arbitrum, anyway? [Proposals

](/c/proposals/7)

Summary As Arbitrum seeks to grow, it's critical to understand why builders and entrepreneurs choose to develop on this platform, and what its strengths and weaknesses are in comparison to its competitors. Currently, Arbitrum delegates and key organisations in the ecosystem (GCP, OCL, Foundation, etc.) have multiple theories on why some developers and entrepreneurs opt for it as their technology of choice, and others don't. And, many choices are being made to define which programs to fund and h…

## C. Designing and Operating the Reporting and Information Function

Designing and Operating the Reporting and Information Function [Proposals

](/c/proposals/7)

TLDR:

Overview: The DAO has existed for 18 months, total expenditures of 425M ARB with 40+ initiatives that have passed Tally; and only in the last three months did we create a single list with the live initiatives. We can do better. Still, reporting has had inconsistent processes, making it difficult to see all the initiatives, let alone determine relative performance. This proposal enables the DAO to create a Reporting and Information function that will enable transparency and visibility into…

## Notable Proposal Discussions (Or upcoming snapshots)

### D. Questbook Season 3 @JoJoTheCow

[Non-Constitutional] [RFC] Arbitrum D.A.O. (Domain Allocator Offerings) Grant Program - Season 3 [Proposals

](/c/proposals/7)

Abstract The Arbitrum Domain Allocator Offerings Grant Program (D.A.O.) has operated for one year across two six-month seasons. The program has evolved and improved based on previous results, growing from its first season, which allocated $250,000 across four domains, to a second season with funding of $1,000,000 per domain. We are now proposing a third season that would run for a full year, encompassing the existing four domains (Protocols, Education/Community and Events, Dev Tooling, and Gami…

## E. ARDC Elections [@Immutablelawyer](#)

[[Election & Application Thread] V2 Arbitrum Research & Development Collective](#)[Arbitrum Research & Development Committee (ARDC)

## F. Arbitrum Ventures: @lvelev

cc: @whenmoonn

[Directional Temperature Check on Arbitrum Ventures Setup](#)[Proposals

](/c/proposals/7)

Context This snapshot draft is one of the deliverables of the AVI pilot and expands on the concepts introduced in the original AVI Proposal (Apr'24), leading to the Venture Catalyst Investment Vehicle presented at GovHack Brussels and subsequent AVI Pilot [https://link.farstar.co/avi-deck](https://link.farstar.co/avi-deck). The nature of the DAO and the markets have required consistent iteration since the inception of the working group. This document represents our latest work and includes insights gathered during the pilot phase.…

## G. AI Models on Chain [@0xredacted](#)

[What If AI Models Lived Onchain? Exploring a Bold New Frontier with Arbitrum Stylus](#)[Proposals

](/c/proposals/7)

Abstract This proposal is developing a framework for deploying and interacting with AI models onchain using Arbitrum Stylus and Rust. This initiative will unlock innovative use cases for the Arbitrum ecosystem, such as decentralized AI computation and verifiable machine learning, while showcasing the scalability and efficiency of Stylus. By focusing heavily on development resources and open-source contributions, this project aims to establish Arbitrum as a hub for decentralized AI applications. …

## H. Partner with ETH Bucharest 2025 - Eastern Europe's Leading Ethereum Conference and Hackathon [@ostanescu.eth](#)

[Partner with ETH Bucharest 2025 - Eastern Europe's Leading Ethereum Conference and Hackathon](#)[Proposals

](/c/proposals/7)

Partner with ETH Bucharest 2025 - Eastern Europe's Leading Ethereum Conference and HackathonNon-Constitutional Abstract

The proposal invites Arbitrum DAO to sponsor[ETH Bucharest](#) 2025, showcasing its Layer 2 ecosystem and Stylus technology while supporting the Hackathon Open Track to drive real-world use cases and foster impactful startups. The total investment for this proposal is set at $ 67,950 (10% discount included). This partnership strengthens Arbitrum's leadership in innovation and c…

## I. ArbitrumHub Evolution - The next step in Elevating Community Engagement and Streamlining Information for Arbitrum DAO's Future [@0x_Buidler](#)

[[NON-CONSTITUTIONAL] ArbitrumHub Evolution - The next step in Elevating Community Engagement and Streamlining Information for Arbitrum DAO's Future](#) [Proposals

](/c/proposals/7)

Proposal: ArbitrumHub Evolution - The next step in Elevating Community Engagement and Streamlining Information for Arbitrum DAO's Future This proposal is a revised version of our previous submission, incorporating feedback from all the delegates, where it was initially rejected due to budgetary concerns and the absence of clear KPIs. After months of research and careful consideration of the feedback, we are presenting this updated proposal. Past Proposal: [click here](#) Arbitrumhub Platform: [Click…](#)

## J. Entropy Updates [@Entropy](#)

OpCo - Entropy

[OpCo – A DAO-adjacent Entity for Strategy Execution](#) [Proposals

](/c/proposals/7)

Non-Constitutional Abstract This proposal builds on the ideas and concepts introduced by[@dk3](#) in the initial [Operation Company (OpCo) proposal](#). The OpCo is a legal entity that delegates and key stakeholders can leverage to achieve DAO-defined goals, principally by forming an operational mesh layer and assigning internal employees or negotiating and entering into agreements with service providers and individual contributors to facilitate initiatives. OpCo's mission is to negate identified frictio…

Treasury Management v1.2

[[Non-Constitutional] Treasury Management v1.2](#)

This proposal has passed the temperature check, and will move forward to onchain vote next Thursday (12/5).

# Updates and Discussions (if we have time

## Notable topics

### K. Incentives Detox update [@krst](#)

[[RFC] Incentives Detox Proposal](#) [Proposals

](/c/proposals/7)

The following reflects the views of L2BEAT's governance team, composed of[@krst](#) and [@Sinkas](#), and it's based on the combined research, fact-checking, and ideation of the two. TL;DR

We agree that incentives are necessary for the continuous growth of individual protocols but also for the ecosystem as a whole. We propose not to rush into creating another incentive program and to agree on a 3-month break once the current incentive distribution periods conclude. During the break, we should focus on …
