[Deploy GMX on Coinbase´s Level 2 Base](/c/proposals/5)[Proposals

](/c/proposals/5)

With the announcement of the ETH L2 network BASE by Coinbase "to onboard >1b users to web3" today, a lot of eyes are on our space once again. BASE is being built on Optimisms OP Stack "with the vision of creating a standard, modular, rollup agnostic Superchain powered by Optimism". The native token is ETH. With the launch of BASE, Coinbase wants to accelerate the development of Coinbase´s onchain products, bring Coinbase´s customers into the cryptoeconomy and increase it's own investment in the…

This discussion has been open since February and has gained quite a lot of attention from the community. The discussion has been open for quite some time, and due to the high interest, we should move on to voting. As a member of the DAO, I suggest contributors add a vote to snapshot.org and let the DAO finally decide.
