Hi, this is stakefish. We had an incident on 2022-12-07 affecting all of our Ethereum validators.

Here is our full postmortem of the incident.

https://stakefish.mypinata.cloud/ipfs/QmPao2FC7oVSRQ2kgKceYbJjzj69XjoEjgUnHyXCuN3Cj1

We propose to reimburse in the amount of 17.720 ETH, similar to how previous incidents were handled. We would love to have guidance from gov ops on how to proceed.
