eth_maxPriorityFeePerGas

Returns an estimate of how much priority fee, in wei, you need to be included in a block.

For Growth and Custom service plans This JSON-RPC method allows a request to be forwarded to a partner service provider if Infura should experience a service issue or outage. See[Failover protection](#) and[Enable API request forwarding](#) for complete details.

If you would like failover protection but don't qualify under your current plan, then either self-upgrade to the Growth plan or contact a sales representative to upgrade to a Custom plan.

Parameters

None.

Returns

result : A hexadecimal value of the priority fee, in wei, needed to be included in a block.
