Ethereum Transaction Hash (Txhash) Details | Etherscan

Ethereum (ETH) detailed transaction info for txhash 0xd84a6e2c7819ca7860910b07a931609f90219b75befdf1add70520a22a841d40. The transaction status, block confirmation, gas fee, Ether (ETH), and token transfer are shown.

that is the ether scan you can clearly see I sent to the Apecoin, it was supposed to be sent to another party and I had to sell one of my other NFTS in RTFKT to buy more Apecoin Pls return it to me I have tried multiple avenues and cant afford to lose so much Apecoin
