Faucet

Faucet isonly available on testnet environments, includingdydx-testnet-4 .

Installation

TypeScript Python pnpm install @dydxprotocol / v4 - client - js

Getting Test Funds

TypeScript Python import { FaucetClient } from

"@dydxprotocol/v4-client-js" ;

const

client

=

new

FaucetClient (FaucetApiHost . TESTNET); const

address

=

/ *your dYdX chain address*/ ; const

faucetResponse

=

await

client ?.fill (address ,

0 ,

2000);

Getting Test Native Tokens

TypeScript Python import { FaucetClient } from

"@dydxprotocol/v4-client-js" ;

const

client

=

new

FaucetClient (FaucetApiHost . TESTNET); const

address

=

/ *your dYdX chain address*/ ; const

faucetResponse

=

await

client ?.fill_native (address);
