AMM Flexibility

We've made it possible to deploy gauges for many different types of pools, for example:

1. Curve-like stable swap pools
2. 3 stables pools
3. Weighted pools (with 3~8 tokens in LP)
4. Wombat-like single stable pools
5. Nested Pools with interest-bearing tokens (e.g. rfETH, USD+, ETHx)
6. Sudo-swap style NFT pools (NFT+Token pair pool)
7. Concentrated liquidity pools
8. PMM
9. ... And various other pools
10.
