Security

Cairo follows good practices of security, but 100% security cannot be assured. Cairo is provided"as is" without anywarranty . Use at your own risk.

Reporting a Vulnerability

If there are any vulnerabilities inCairo , don't hesitate toreport them . 1. Use any of the private contact addresses 2. . 3. Describe the vulnerability. 4. If you have a fix, that is most welcome -- please attach or summarize it in your message! 5. We will evaluate the vulnerability and, if necessary, release a fix or mitigating steps to address it. We will contact you to let you know the outcome, and will credit you in the report. 6. Please **do not disclose the vulnerability publicly** until a fix is released! 7. Once we have either a) published a fix, or b) declined to address the vulnerability for whatever reason, you are free to publicly disclose it.
