Info:

Every Friday, a weekly summary of the information compiled on optimismgrants.io is posted here in this thread.

Update:

Since Sep 21, the site now also includes a grants calendar and FAQ section.

I'm excited to share that the Optimism Grants Changelog (optimismgrants.io) is now live!

I've recently been reading through the Season 4 Feedback Thread and some of the message history on Discord, and got the impression that many find it difficult to stay up to date when it comes to information about grants.

Season 4 Feedback Thread

adhering to the deadlines often required navigating a maze of forum posts.

To improve the user experience for (prospective) grantees and other contributors, I've consolidated announcements/changes/deadlines from the various Collective Grants into a single page. I will keep the site updated at least until the end of the year, and of course beyond that date if there is a lot of interest.

Hopefully this will help some of you find relevant details more efficiently:

- Which grant programs are open for applications?

- What are the deadlines?

- What have been the latest changes/updates?

The design and page structure is loosely inspired by status/uptime monitoring pages like status.optimism.io.

Please let me know if you have any feedback, and keep in mind that this is only a first initial version which is far from perfect.
