Title: [TEMP-CHECK] Proposing Aave Governance Calls

Author: [@boardroom](#)

Date: 2023-12-06

Summary

Back in June, we posted a potential initiative to initiate [a bi-weekly governance call](#). To restart the initiative, the Boardroom team has been working towards initiating a new series of Aave Community Governance calls. There have been numerous exciting and important updates in the Aave Governance forum that we're eager to share and discuss.

Motivation

The objective of these calls is to create a welcoming and accessible forum where both stakeholders and newcomers can engage in meaningful discussions about governance. These discussions will encompass a variety of topics, including existing and upcoming proposals, delegate initiatives, and meta-governance, which involves evaluating the efficacy of Aave's governance processes. Furthermore, we'll explore the broader, long-term development of Aave's governance framework.

Specification

The calls will primarily focus on two aspects:

1. Provide a stage for proposers to showcase their ideas to the community. Individuals or organizations that have submitted draft proposals on the forum or Snapshot will have a chance to present their concepts before proceeding to a vote.

2. Offer a venue for community members to stay informed about the latest developments in the Governance forum. Given the volume and variety of proposals, these calls will be an invaluable resource for keeping up with all significant updates.

Tentative Agenda for the Initial Call

We have listed authors of the mentioned topics to know their interest in presenting to the community:

- Harmony One Recovery Proposal [@Selvy](#)

- Collaboration between Gauntlet and Aave [@Gauntlet](#)

- BGD Labs Updates [@bgdlabs](#)

- Introduction of Native USDC on Aave V3 Markets and more [@EzR3aL](#)

- New Chain Deployment Framework by ACI [@0xTogbe](#) [@ACI](#)

- TokenLogic and Karpatkey partnership for Aave [@karpatkey_TokenLogic](#)

We'd expect a 2-3 min discussion on each.

We suggest scheduling the community call for next week, with potential dates being the 11th or 12th of December 2023. This will also give us a break during the holidays to consolidate feedback and better the agenda and structure. We welcome feedback from community members about the concept of the call. Your input on the most suitable time for the call is also crucial, considering the global spread of our community and the resulting time zone differences.

Disclaimer

Boardroom is not presenting this proposal on behalf of any third party. The facilitation of governance calls falls under the responsibilities outlined by Boardroom in a grant received from the Aave Grants Program for which we will be fulfilling operational responsibilities starting in December.

Next Steps

We are looking for comments and feedback from the community members to identify the possibility of such a call next week. With support from the community members, we would love to get started on the Governance calls. Additionally, with holidays, if you believe that the call should be scheduled on Jan 2024, please feel free to suggest it as well.

To accommodate everyone's schedule, we have created a survey for community members to select their preferred time. Please register your availability here:
