Hello all,

the soft proposal for the community to signal the support for the token migration is live. You can find it here
https://signal.aave.com/#/aave/proposal/QmbzqFQRMxicKMLLKwAf6bZ75hYNYEDkgnTiAsdsukcAFH.

This is the last step before the final phase of the migration. If the signal is positive, an AIP will be created and the implementation of the migration process finalized.

Excited to move forward!
