I'm ReZone, young crypto-artist and more really graphic designer. I'm 20 years old and I'm starting my career as a freelancer after having spent 2 years traveling and training in the world of graphic design on many tools (photoshop, illustrator, procreate…).

Passionate about crypto, NFT and more generally Web3 I offer free graphic design services of any kind (business card, YT thumbnail, IG post, PFP customization…) for the communities I'm involved in. I'm not looking for any payback for this work except the use of the final render for my Behance gallery to show my work to my future clients.

Don't hesitate if you want to contact me it's on insta directly rezone.dgn, for any desire/need I will do my best to satisfy you. I wish you a good day/evening !
