Reminder - Tuesday 09.13 is the bi-weekly Grants & Governance workshop at 2pm UTC

These bi-weekly facilitated sessions are open to all delegates and teams/individuals contributing to the Arbitrum ecosystem. Hosted workshops will use design thinking to understand the problems we are facing, align our conversations, and find better solutions.

In past meetings we have explored both bringing topics for discussion and letting the topics emerge from the participants. The blended model seems to be working, so for our next call we will do a scripted 20 min exercise followed by emergent topics.

Regardless, we are committed to making these meetings less about information sharing - and more about issue exploration & next step identification.
