Hey,

first of all sorry for such a late notice. As announced already on the #1

Arbitrum Open Governance Call four weeks ago, we'll meet once again tomorrow for the #2

call.

The call will take place again on Google Meet:meet.google.com/ouo-uskg-niq tomorrow at 4pm UTC (same as last time). The agenda will be provided tomorrow before the call. If there are any topics that you would like to cover during this call, don't hesitate to propose in this thread.

This time I will try to record the call and publish it later on for a public review, so please keep that in mind.

I've created the public Arbitrum Governance calendar for our events. I have already there all the upcoming Open Governance Calls for the foreseeable future, I will also keep updating it with any events that might be of interest for Arbitrum Governance community (like vote deadlines, group meeting etc.).

Hope to see you all tomorrow at that link and am really sorry for the short notice. Please spread out the word so that all interested community members could join!
