13. Multisig Support Service (MSS) Elections

Tally Voting

For this month, there were a total of 6

Tally Votes considered for TV

scoring. It is important to note that only those proposals that ended in June were counted. These are the proposals that were considered:

1. Front-end interface to force transaction inclusion during sequencer downtime

2. Pilot Phase: M&A for Arbitrum DAO

3. Catalyze Gaming Ecosystem Growth on Arbitrum

4. Constitutional AIP - Security Council Improvement Proposal

5. ArbitrumDAO Contribution; Safeguarding Software Developers' Rights

6. Kwenta x Perennial: Arbitrum Onboarding Incentives

Communication Rationale

For the CR

, the published rationals of all the votes of the month were considered, taking into account Snapshot and Tally, that is to say, that to obtain the maximum qualification in this aspect a delegate had to express his rational of all the votes of the month, in other words, 19

(13

Snapshot + 6

Tally).

Commenting in proposals

The 13

Snapshot proposals were considered.

[CALL TO ACTION!] Dispute Period

As stated in the [proposal](#), delegates have 2 days to express their disagreement with the results presented by the Incentive System Administrator.

To raise a dispute, delegates should do so by posting a message in the forum using the following template:

Title: Dispute

User name

Reason for dispute (please detail)

Conclusions

This month has been the one with the most compensated delegates so far. In terms of data collection it has been a busy month but not as big as May iteration of the program. We are delighted to see how delegate activity has evolved, demonstrating increased engagement and participation in governance processes.

Given the high volume of Communication Rationales (CR) collected this month, we acknowledge the possibility of errors. We invite all delegates to double-check our Table their recorded CRs to ensure accuracy.

Here you can see all the information related to CP and CR.

If you want to give any feedback, don't hesitate to do it in this thread.
