```

Copy useorion::operators::ml::TreeEnsembleClassifierTrait;

```

Data types

Orion supports currently only fixed point data types forTreeEnsembleClassifierTrait .

Data type dtype Fixed point (signed) TreeRegressorTrait

How to constructTreeEnsembleClassifier

You can utilizethis notebook to translate parameters from your ONNX TreeEnsembleClassifier model into Cairo code. Efforts are underway to integrate this functionality into Giza-CLI, aiming to enhance the user experience.

function description tree_ensemble_classifier.predict Returns the top class for each of N inputs.
