The temperature check to establish the Uniswap Treasury Working Group (UTWG) passed with over 20M YES votes. This formally demonstrates the DAO's interest in pursuing a research initiative to begin mobilizing the Uniswap treasury. The working group will consist of four members, two of which have been determined as part of Working Group Zero (WG0), composed of @AbdullahUmar and @Doo_StableLab. After this election, all 4 spots will be filled.

The UTWG itself will not be determining how the treasury will be managed–rather, its goal is to conduct research into best practices for treasury management, specific to Uniswap. After conducting 8 weeks worth of research on historical attempts at treasury management across various DAOs, as well as interviews with multiple treasury and fund managers, the UTWG will publish its findings to the Uniswap DAO. The group will also submit at least two deliverables, highlighting recommended next steps for the DAO to pursue. At this point, the working group will ideate in concert with the DAO to potentially see through a series of proposals–for example, a treasury manager RFP process. Note that the implementation of the working group's findings will need to align with further clarity around the Uniswap DAO's adoption of a legal structure.

This present forum post will serve as the space for candidates interested in applying to the UTWG to submit their applications.

For more information on the motivation and operations behind this proposal, please visit the initial forum post: Mobilizing the Uniswap Treasury.

Application Logistics

- If you wish to apply for a position in the UTWG, please comment on this forum post by completing the below application format. Try to keep your responses brief and to the point.

- The application deadline is Sunday April 14 @ 12pm eastern time.

- WG0 will sift through the applications by the deadline time and disqualify incomplete or incoherent submissions–all applicants that properly complete the application will be included in a Snapshot vote.

- The Snapshot will run for 5 days, between April 15th - April 19th

- The top two candidates by received votes will be rolled into the onchain vote that will commence during the following week, which will propose to officially establish and fund the UTWG, composed of WG0 and the two candidates elected by the DAO.

- Only respond to this forum with applications. All questions about procedure, operations, etc should be directed to the original forum post and will be answered by WG0.

Application Format

1. Applicant name:

2. You may apply as an organization or an individual. If you're an organization, please have your primary point of contact submit this application.

3. What is your motivation for applying to this working group? (max 3 sentences)

4. Please list your association, history, and contributions to the Uniswap protocol or DAO

5. Briefly provide an overview of your experience with DAO treasury management, traditional fund/asset management, DeFi incentive programs, and/or any sort of professional investing (max 5 sentences)

6. Propose one meaningful way by which Uniswap can bolster its treasury (max 5 sentences)
