AIP Name:

AIP-301: [Eesee-ApeCoin] A Collaboration for Community Engagement and NFT Accessibility

Implementation Status:

Pending

Author:

@vova.eesee

Abstract Summary:

This proposal introduces a strategic alliance between Eesee, a gamified NFT platform, and ApeCoin DAO. The partnership is designed to democratize access to high-value NFTs, stimulate community interaction, and inspire active involvement in ApeCoin governance, and enhance the visibility of ApeCoin's sub-communities.

Overall Cost:

0 ApeCoin

Timeline Updates:

Interview Q&A:

1. What are you working to accomplish before the end of the month?

2. We are planning to release the Mainnet on 27th January, but it might be slightly delayed.

3. Have there been any delays or changes to the original timeline?

4. Yes, as we took longer to fix minor bugs in Testnet.

5. Was there any part of the AIP process in which you felt the least supported?

6. No

7. How can the community support your initiative?

8. Spread the word about https://twitter.com/eesee_io

9. Do you have anything you would like to tell the community?

10. We have started Testnet in under 35 days ago and in that time we have 250,000+ wallets connected

Total number of wallets 262,309

Cumulated value: $41.98M

- Community analytics:

Average wallet age 371 days

Ratio of wallets by number of transactions

1-10 30,80%

10-15 7.84%

15-100 34,78%

100-200 9,02%

200-500 8,32%

500+ 9,24%

- Over the last 90 days, all wallets have made

858,979 transactions worth $174.53M

- Over the last 30 days, all wallets have made

289,986 transactions worth $81.02M

1. Do you provide consent to share these questions with the community in this forum?

2. Yes
