Testnet

mint() testnet stablecoins to your wallet with the links below. Then use those tokens forswap() testing. To use addLiquidity & swap() native ETH use the RouterETH.sol contract instead of Router.sol Stargate testnet has been redeployed as of 22nd Jan 2024. The old testnet contracts are no longer supported.

There is currently support for the following testnets: Sepolia (Ethereum Testnet), Fuji (Avalanche Testnet), BNB Chain (Testnet), Arbitrum Sepolia (Testnet), Optimism Sepolia (Testnet) and XCHAIN (IDEX Testnet).
