Vision:

Establishing a gold standard for transparency within the ArbitrumDAO ecosystem, fostering trust, collaboration, and informed decision-making among community members.

Initial Pilot Committee: @0x_Buidler @ZER8 @ocandocrypto

Mission:

Dedicated to creating and maintaining a transparent and open environment, developing tools, platforms, and facilitating regular meetings to share information and insights with the community.

Work Group Structure:

Engineers + Designers:

- Develop user-friendly tools for enhanced visibility.

- Collaborate on designing interfaces simplifying governance data.

- Iterate on tools based on community feedback and emerging governance needs.

DAO Explorers with Public Speaking Skills:

- Analyze and report on activities, proposals, and key developments.

- Lead weekly meetings, share insights, and facilitate community discussions.

- Good public speaking skills for effective communication.

Direct Connection with Important Members of DAO:

- Establish and maintain direct connections with influential members.

- Act as imp-explorers for transparent information gathering.

- Foster collaboration and communication between DAO members and the broader community.

Possible Initiatives:

- Transparency Dashboard

- Educational Webinars

- Community Feedback Mechanism

- Monthly Reports

- Collaborative Wiki

- Roadmap

Phases:

- Phase 1 (Pilot Program, 4-6 weeks):

- Voluntary basis.

- Demonstrate value and impact.

- A lot of experiments to find the best path forward for the workgroup.

- Voluntary basis.

- Demonstrate value and impact.

- A lot of experiments to find the best path forward for the workgroup.

- Phase 2 (Compensation and Funding):

- To be shared and announced upon conclusion of phase-1.

- Present findings and impact metrics to the DAO.

- Propose budget for ongoing operations and tools development.

- Seek funding through DAO grants or through other available funding mechanisms.

- To be shared and announced upon conclusion of phase-1.

- Present findings and impact metrics to the DAO.

- Propose budget for ongoing operations and tools development.

- Seek funding through DAO grants or through other available funding mechanisms.
