Hi,

I'm having an issue with decryptTaskResult that looks likehttps://github.com/enigmampc/enigma-contract/issues/154#issuecomment-537087156

I only have this issue with the React frontend, not with the Mocha tests.

Here's the code : https://github.com/guix77/enigma-secret-access-control/blob/f10fe04507b8ae2d9eb73b8cffc3b0b20c828f16/client/src/components/ReadSecretMessages.js#L87

Here's the equivalent Mocha test which works perfectly fine:https://github.com/guix77/enigma-secret-access-control/blob/f10fe04507b8ae2d9eb73b8cffc3b0b20c828f16/test/test_secret_access_control.js#L145

Any idea ?
