DEP AMAs take place on Twitter/X and are one the best ways to interact with the grants team, share ideas, and learn about new initiatives.

Given the recent transition from dYdX Grants to the new Ecosystem Development Program we are aiming to gather more comprehensive feedback before and after the sessions, especially for those who can't make it during the event.

Agendas will be posted here before each session.

Some ways to interact:

- What recent grantee should join the session - what areas would you like to learn more?

- What potential areas should be considered for funding and RFPs?

General feedback, ideas, and more are welcome!
