Hi everyone, I swapped ETH to sETH and now I want to use that to swap for SCRT and sSCRT. I can't complete these transactions because I don't have SCRT for gas. Where do I purchase SCRT for the gas I need. I live in the US? Thanks!

UPDATE: I figured how I could do it. I used Hotbit.io to buy ETH, swapped it for SCRT, then moved SCRT to Keplr wallet. Had the SCRT for gas fees to do the sETH to sSCRT swap.
