PROPOSAL NAME

Add "RISKS & CHALLENGES" Section into the AIP Proposal Template

PROPOSAL CATEGORY

Category: Process

ABSTRACT

Incorporate a 'RISKS & CHALLENGES' section into the AIP Template. It'll enhance transparency, help us prep better, and ensure the ApeCoin community makes well-informed decisions.

AUTHOR DESCRIPTION

Written by @shotgun.tobi

MOTIVATION

Almost any proposal, no matter how beneficial, carries inherent risks. By proactively addressing these risks, we not only prepare ourselves for potential challenges but also make more informed decisions, ensuring the longevity and resilience of the ApeCoin ecosystem.

RATIONALE

This will help improve transparency as well as collective responsibility of the DAO.

BENEFIT TO THE APECOIN ECOSYSTEM

- AIP Authors will be encouraged to think critically about potential roadblocks, ensuring a more thorough proposal preparation.

- The DAO can make more informed decisions when voting, knowing both the benefits and potential pitfalls of an initiative.

- Proactive identification of risks will allow for better resource allocation and contingency planning, ensuring smoother project execution.

SPECIFICATIONS

This AIP requires changes on the ApeCoin Discourse forum and changes in the template used when posting AIPs to Snapshot.

The AIP Draft Template should be edited to include a section entitled "Risks & Challenges". This new section of the AIP Draft template should come after "Rationale" and before "Benefits to the ApeCoin Ecosystem".

This new section will also be included on Snapshot each time an AIP goes to vote. This section on Snapshot should come prior to the "Overall Cost" section.

STEPS TO IMPLEMENT

(1) The ApeCoin DAO's Discourse Facilitators are instructed to edit the following Discourse posts to include a section entitled "Risks & Challenges"–

In the AIP Draft Template Breakdown post, the "Risks &Challenges" section should be section number 7, and the sections following should be re-numbered accordingly. The section should include the following as a brief description of what is expected in that section:

Explain the risks & challenges that you or ApeCoin DAO might face should your proposal be passed. Include potential actions or contingency plans that could be taken in response to these.

(2) The Administrators responsible for posting AIPs to Snapshot are instructed to include the "Risks & Challenges" on Snapshot each time an AIP goes to vote. This section should come prior to the "Overall Cost" section.

TIMELINE

This AIP can be implemented within 1-2 days of the AIP being approved by the DAO.
