Voting Cycle 4 begins Thursday (July 21) at 12pm PST / 7pm GMT and runs until Wednesday (August 3) at 12pm PST / 7pm GMT.

This will be the last voting cycle for Season 1 of OP Governance. For more info, read Governance Update #2

here.

Voting will take place in Snapshot. A snapshot of delegate voting weights will be taken at the start of the Voting Cycle.

For a detailed breakdown of the governance and voting process, see the Operating Manual.

# Context

Voting Cycle 4 is officially underway, and includes 6 proposals for voting. There are just a few notes that the Optimism Foundation would like to highlight going into this cycle:

- This will be the last voting cycle for Season 1 of OP Governance, and a 3-week break will commence after this cycle. For more info, read Governance Update #2

here.

- As stated in the OPerating Manual, it is the recommendation of the Optimism Foundation that at least one delegate (with >0.0005% of voting power) signals their belief that the proposal is ready for a vote before passing. As in the previous cycle, proposals which have not received explicit approval by a delegate are still included. But, as a reminder

—such proposals have not correctly followed the rules laid out in the OPerating Manual, and this behavior should be considered by delegates in voting
