Delegate to an Operator

Follow these steps to initiate delegation of your restaked balance to an Operator. Delegation is an all or nothing operation. You must delegate all of your available Restaked balance to a single Operator.

Step 1: Navigate to the Operator tab to view a list of available Operators.

Step 2: Search for operators via their name or Ethereum address. Click on the Operator tile to view their Detail page.

Step 3: Click Delegate to initiate a delegation of all your staked assets to that operator.

Step 4: Confirm the transaction in your Web3 wallet.

Step 5: Note the delegating progress message.

Step 6: Note your delegated balance reflects all of your available restaked funds.[Previous Testnet Restaker Delegation](#) [Next Redelegation Process](#)
