Check if an external account supports paymasters

If you have added support to sponsor transactions for external accounts using@permissionless/wagmi , you can use this guide to check if the external account supports ERC-7677 paymasters and display custom UI for your users.

Steps

Import useCapabilities

```
import{ useCapabilities }from'wagmi/experimental'
```

Fetch the available capabilities

```
import{ useCapabilities }from'wagmi/experimental'

functionApp() { constcapabilities=useCapabilities() }
```

Parse the capabilities for the currect chain

```
import{ useCapabilities }from'wagmi/experimental'

functionApp() { constcapabilities=useCapabilities()

constaccount=useAccount() constcapabilitiesForChain=capabilities[account.chainId]

}
```

Check if the paymaster service is supported

```
import{ useCapabilities }from'wagmi/experimental'

functionApp() { constcapabilities=useCapabilities() constaccount=useAccount()

constcapabilitiesForChain=capabilities[account.chainId]
constpaymasterServiceSupported=capabilitiesForChain?.paymasterService?.supported }
```
