Hello! I am using flashbots.py to simulate and distribute the bundle.

I wrote a python script and everything worked a week ago. however now I am getting an exception:

File "/home/u/.local/lib/python3.9/site-packages/web3/_utils/request.py", line 114, in make_post_request response.raise_for_status() File "/usr/lib/python3/dist-packages/requests/models.py", line 940, in raise_for_status raise HTTPError(http_error_msg, response=self) requests.exceptions.HTTPError: 400 Client Error: Bad Request for url: https://relay.flashbots.net/

to understand what's going on, I modified the web3/_utils/request.py file and displayed the request parameters:

endpoint_uri: https://relay.flashbots.net

data: b'{"jsonrpc": "2.0", "method": "eth_callBundle", "params": [{"txs": ["0xf86d82011c850359787955825208944add366e483386870049da86548df92c661d65b1873543e44dbbf6da801ba023b0e907eb70b90e0bed1a608a8cdaeefbedd1b9b5c01b961f6131a5d1b82f05a0182 "0xf8a90885035978795582b63294c12d1c73ee7dc3615ba4e37e4abfdbddfa38907e80b844095ea7b30000000000000000000000007a250d5630b4cf539739df2c5dacb4c659f2488dffffffffffffffffffffffffffff "0xf9016b098503597879558830f4240947a250d5630b4cf539739df2c5dacb4c659f2488d80b9010418cbafe5000000000000000000000000000000000000000000000000050d809593800000000000000000 "blockNumber": "0xf98e9d", "stateBlockNumber": "0xf98e9c", "timestamp": 1673095331}], "id": 0}'

args: ()

kwargs: {'headers': {'Content-Type': 'application/json', 'User-Agent': "Web3.py/5.31.3/", 'X-Flashbots-Signature': '0x2CA0aFCccf07a18c10F27de1217138b34B32494b:0x4a585ed1300fe3bd32959bed869b2763f5276c4f8cc0377cffd8c99fe044e7617bae14c681a7c5e80571f3b5fce913e35d8dfef7eff483573858ba01f85 'timeout': 10}

everything is falling apart on the simulation call…

Help to understand what's the matter, everything worked.

I tried to generate a new access key - but it did not work.
