Delegation Philosophy:

- Alignment with Arbitrum and Ethereum's Vision:

We are committed to Arbitrum's mission of scaling Ethereum through innovative solutions like Arbitrum One and Arbitrum Nova. We believe in enhancing the user and developer experience by making transactions faster and cheaper without compromising security and decentralization.

- Promotion of Decentralized Governance:

We strongly support the Arbitrum DAO's governance model, where the community has the power to influence key decisions. We aim to strengthen active participation in governance, ensuring that the voices of all stakeholders are heard and valued.

- Empowerment of the Latino Community:

We are dedicated to educating and motivating the Latino community about the opportunities within Arbitrum and the Ethereum ecosystem. By fostering diversity and inclusion, we aspire to enrich the ecosystem with new perspectives and talents.

- Transparency and Collaboration:

We advocate for open and transparent processes, promoting collaboration among developers, users, and other delegates. We believe that innovation arises from collective work and the exchange of ideas.

Delegate Statement:

We are a group of young enthusiasts passionate about Web3 and decentralized technologies. Inspired by Arbitrum's vision of scaling Ethereum and empowering the community through decentralized governance, we are excited to actively contribute to this transformative journey.

Our goal is to work closely with other delegates and community members to:

- Drive Growth and Adoption:

We will work to promote the adoption of Arbitrum's Layer 2 solutions, facilitating a more accessible and efficient ecosystem for everyone.

- Strengthen Security and Decentralization:

We will support initiatives that reinforce network security and promote greater decentralization, aligning with Ethereum's core values.

- Foster Education and Participation:

We are committed to educating the community about the importance of governance and how they can get involved, especially focusing on the inclusion of the Latino community.

We firmly believe in the power of the community and the importance of incorporating diverse voices in decision-making. By joining forces, we can ensure that Arbitrum not only grows but does so in a way that benefits all participants in the ecosystem.

Conflict of Interest and Resolution Policy:

We confirm that there are currently no conflicts of interest that could influence our decisions within the Arbitrum DAO. Should any conflict arise in the future, we commit to:

- Total Transparency:

Openly and clearly inform our delegators and the community about any potential conflicts.

- Responsible Abstention:

Refrain from participating in discussions and votes related to the conflict, ensuring that our actions always reflect the best interests of the DAO and the community at large.

Our commitment is to maintain integrity and trust in all governance processes, ensuring that our decisions are made impartially and ethically.
