Vera: Verifier Alliance

The [Verifier Alliance](#) is an ecosystem collective aiming for easy, unified, and open access to the source-code of EVM smart contracts. It is made up of projects across the ecosystem dedicated to making source code verification information freely available for all. Blockscout is a founding member of the collective and major contributor to the Vera Database.

- Verify and Publish contracts to supported networks using the [Blockscout Vera app](#)
- .
- [Add your network to the Vera DB](#)
