Dear fam, we are well aware of the extensive discussions surrounding data and transparency regarding the treasury and governance lately and many constructive suggestions and excellent ideas have been put forward by the community as well. With the positive vibe, we would love to be the first ones to focus on reporting through a community-driven initiative. This initiative is created by the community, intended for the community, and we hope to see more of you join us.

We value your feedback and encourage you to notify us of any discrepancies or adjustments that may be required

.

While we possess great passion, work diligently behind the scenes, our team's shyness often hinders us from engaging effectively with the community. We hope that our efforts and the reports we deliver can convey the sincerity we put into our work

.

Without further ado, we have compiled the report for the month of May.

And if the feedback is positive, we will try to keep it going reporting on a monthly basis.

**Treasury and Governance Report in full details: The PASS—DAO Aggregator **

Apecoin Transaction Labeling For May: Apecoin DAO Transaction Labeling (Monthly Update) - Google Sheets

Please go over the report in above link or walk through with us here in this post now
