Join our weekly one-hour session to discuss the enhancement of the grantee experience on Arbitrum, explore the DAO's community review process, and contribute to the impact evaluation of our grantees.

This is an integral part to developing a pathway towards decentralised grantee reviews and showcase how grantees can utilize the tools we funded like Karma to assist in develiping a one stop shop for grant history .

Your insights are vital as we strive for a transparent, accountable, and effective system for assessing funded projects. Open to all Arbitrum DAO grantees and individuals interested in decentralized community review and impact evaluation. No registration required, welcoming participants from Questbook, STIP, Uniswap-ARB, and Plurality Labs programs

- When: Thursdays 11 am EST

- Where: meet.google.com/jmg-ixja-wpk

- Duration: 1 hour

Weekly Discussion Topics

- Arbitrum DAO Community Post Funding Grant Review Pilot (Plurality Labs)

- Overview of Karma GAP for Grantees

- Overview of Karma GAP for Reviewers

- Survey of the Week on questions (for the workshop attendees)

- Q&A

…

Karma GAP is a protocol for tracking and ensuring accountability of community-issued grants. It enables grantees to set and update milestones, allowing communities to monitor progress and assess the impact of projects.

They are funded by Plurality Labs check there updates
