Proposal Name

Bananarama Resort: The Vacation spot for NFT communities (Powered by ApeCoin)

Abstract

This AIP aims to use funds to purchase Bananarama Resort, Restaurant, and Dive Shop in the Caribbean. A 23-room beachfront resort for the entire NFT community. We will host weekly web3 educational seminars for the locals and anyone interested. The seminars will be led by all the NFT OG volunteers in exchange for stays.

Motivation

This AIP has two benefits for the ApeCoin ecosystem, first, it adds utility by allowing holders to book their stay using ApeCoin, second, it creates massive exposure to non-web3 natives (tourists and locals) on a daily bases.

Blockchain Education will be held weekly, via web3 seminars led by OG community volunteers.

Host the BAYC/MAYC Annual Caribbean Retreat, where holders can claim two free stays and enjoy a vacation with other apes.

NFT communities will have the option to reserve the entire Resort as an added utility for their communities. Reservations can be made on weekly or monthly time periods and must be paid for in ApeCoin.

Proposals submitted to the AIP Ideas category can be vague, incomplete ideas. Topics submitted here are not required to be submitted as a formal AIP Draft Template, however, you may still use the [template](#) if you wish.
