Hi ApeCoin DAO Community,

Over the past year, there hasn't been much follow-up with authors of approved AIPs. This doesn't mean authors are not completing their milestones as written in their proposals, but up until this point the progress has often not been explicitly stated nor shared with the community.

As part of my mandate as DAO Secretary, I've begun to address this by tracking this information to be able to report on it. I have created an "AIP Milestone Tracker" database, which contains three different views:

- Grid:

basic table of milestones

A link to the read-only version of the database is below. It's still a work in progress as I continue to gather information, but you can follow along to see updates as I continue to build this out.

Airtable

Airtable | Everyone's app platform

Airtable is a low-code platform for building collaborative apps. Customize your workflow, collaborate, and achieve ambitious outcomes. Get started for free.

One thing to keep in mind as you are reading through is that anything marked as "TBD" does not mean that particular task has not been completed. Rather, it means I need to do additional research to figure out the current status of that task.

Are You an AIP Author?

If you are an author of an approved AIP and want to inform the community of milestones you have met, you can fill out this form. You can also reply to this thread if you prefer.

One Final Note

If you have any questions, suggestions, or things you would like to see included in these charts please leave a comment below. The goal of this project is to be a resource for the entire DAO.

Thanks,

Vulkan
