Configuration

Configuration

SCRT Labs regularly updates a[Secret Network API Registry](#) containing information required to configure thesecretcli.

To check the status of a node use:

```
Copy secretclistatus--node"URL"
```

Mainnet

```
Copy secretcliconfignodehttps://rpc.mainnet.secretsaturn.net:443

secretcliconfigchain-idsecret-4

secretcliconfigoutputjson
```

Testnet

```
Copy secretcliconfignodehttps://rpc.pulsar.scrttestnet.com/

secretcliconfigchain-idpulsar-3

secretcliconfigoutputjson

secretcliconfigkeyring-backendtest
```
