How to use ASI Alliance Wallet

Feature 2 - Stake

By choosing this option, you will be redirected to theStaking Dashboard where you can review all of the related information.

Stake Dashboard

1. By clicking on theStake
2. icon, users are redirected to theStake Dashboard
3. where they can see their available, staked, and claimable amounts. The dashboard also contains a list of validators in which users have staked.
4. TheStake more
5. button allows users to stake with a variety of other validators. For a detailed walk - through, refer toStake Functions

6. .

7. Staking rewards

8. provide information on the claimable amounts for all staked validators. Users can claim the entire amount or choose to claim from specific validators by clickingView rewards
9. .
10. Staked balances
11. provide an overview of staked tokens amounts.

Stake Functions

1. The dashboard view is dynamic, appearing differently when the user hasn't staked yet. In this case, the user will seeStart Staking
2. orStake More
3. , both of which perform the same function. Clicking the button redirects to theValidators List
4. , where users can filter validators byAPR
5. ,Voting Power
6. , andName
7. .
8. Clicking on any validator box will redirect you to its details page; this allows the user to proceed with staking by providing the necessary transaction information. Once the transaction is completed, it will be displayed on the staking dashboard.

Unstake Functions

Unstaking involves withdrawing the staked amount from a validator. Follow these steps to unstake your tokens:

1. Open theStake Dashboard
2. view.

3. Scroll to the staked balances section and select the validator.

4. Click theUnstake

5. button.

If you withdraw the entire staked amount, you will see a21-day unstaking process view for that token.

Redelegate Functions

Redelegating involves moving funds from one validator to another. Follow these steps to successfully redelegate your tokens:

1. Open theStake Dashboard
2. view.
3. Scroll to the staked balances section and select the validator.
4. Click theRedelegate

5. button.

6. Select the new validator where you want to stake the balance.

7. Fill in the necessary information and proceed with the transaction.

Claim Rewards

Staked rewards can be claimed from multiple locations:

1. Home Tab

2. Portfolio

3. Stake Tab

4. Stake Token Detail

After successfully withdrawing rewards, they will be displayed on the staking dashboard.
