There is a quite interesting idea that I would like to share with you guys:

Since we have so many discussions in the Discord governance channel, it's quite hard to gather all the valuable opinions. In the morning, there was a dialogue between me and one of the community members.

](https://global.discourse-cdn.com/business6/uploads/uniswap1/original/2X/d/ddccbe8884c9de44b0ff3c2535f783e52f3aad8d.jpeg)

This inspired me with an idea came out of my mind: If you think your idea is valuable, why don't prove it by burning 0.01ETH (send ETH to Burn address: 0x000000000000000000000000000000000000dEaD) with your opinion input in the txn data.

Here is my:

Delegate our votes to @rleshner (0x88FB3D509fC49B515BFEb04e23f53ba339563981)
