Hello all. My name is Will. I am the Ecosystem Growth Manager at Oasis Protocol Foundation. We will be hosting a mini summit at ETH CC in Paris. I was hoping to connect with someone from the flashbots team to see if there was any interest in joining a panel focused on MEV during our mini summit. I also would love to connect with the team to discuss some interesting areas for potential collaboration. I look forward to hopping on a call and discussing more

Regards,

William Wendt
