Proposal: Establishing a Zero Knowledge (ZK) Working Group within Arbitrum

Objective:

We propose the creation of a dedicated Zero Knowledge (ZK) Working Group within Arbitrum aimed at fostering collaboration, sharing updates on ZK learnings, and showcasing products developed within the Arbitrum ecosystem.

Goals:

1. Knowledge Sharing:

Facilitate the exchange of insights and updates on ZK technology, research, and applications specific to Arbitrum.

1. Community Engagement:

Engage with developers, researchers, and enthusiasts to explore and innovate ZK solutions within Arbitrum.

1. Regular Meetings:

Establish regular meetings to discuss progress, challenges, and opportunities related to ZK within Arbitrum. Proposed timing for meetings: Every Saturday at 1 PM IST.

How to Participate:

To join the Zero Knowledge (ZK) Working Group and contribute to the advancement of ZK technology within Arbitrum, please join our Telegram group here and comment below expressing your interest. We welcome developers, researchers, and enthusiasts passionate about ZK to participate in shaping the future of privacy-preserving solutions on Arbitrum.

Next Steps:

- Join the Telegram Group:

Click here to join the group and start collaborating immediately.

- Express Your Interest:

Comment below or in the Telegram group to indicate your interest in participating.

- Initial Meeting:

We will schedule an inaugural meeting to set objectives, discuss roles, and plan future activities based on your input.

Your participation is crucial as we endeavor to strengthen our community's expertise in ZK technology and drive innovation within Arbitrum. We look forward to your involvement and contribution's
