Key Performance Indicators (KPIs):

- Target 5.000 members using BOT.

How will receiving a grant enable you to foster growth or innovation within the GMX ecosystem?

- Expand the GMX ecosystem as the BOT can be utilized across various groups/communities. The signals from GMX

Whale alone have already garnered significant attention from other ecosystems.

- We utilize the signals from the BOT for research and onboarding users through posts on our Twitter channel. This brings GMX to the attention of a broader user base from both web2 and web3 ecosystems. Additionally, we connect with local communities using the BOT.

Justification for the size of the grant:

- I will use the entire sponsorship amount to build and develop the BOT, as well as allocate funds for the ongoing operation of the BOT in the long term

Execution Strategy:

- The requested grant size is based on the number of hours already spent and will be spent on the development, maintenance, and smooth operation of the server so that the BOT can operate seamlessly without encountering issues.

Grant Timeline and Milestones:

Total Timeline: 3 months, segmented as follows:

- Milestone 1 - 5,000 ARB - Integrate GMX v2 - Dec 2023

- Milestone 2 - 1,500 ARB - Optimize adding the bot to groups - Dec/Jan 2023

- Milestone 3 - 2,000 ARB - Develop tools on Discord - Jan 2024

- Milestone 4 - 1,500 ARB - Boost collaboration, connect the bot to various communities - Jan/Feb 2024

Fund Streaming:

[Do you accept the funding of your grant streamed linearly for the duration of your grant proposal, and that the multisig holds the power to halt your streamed grant at their discretion at any time?]

YES!

SECTION 4: PROTOCOL DETAILS

What date did you build on GMX?:

- The Onchain Trader BOT integrated GMX v1 data on July 5, 2023. This marks the official beginning of my journey.

Protocol Performance

- Integration, able to track data from 405,629 users in GMX v1.

- Mandatory community participation is required to use the BOT. We currently have 841 users using the BOT, with 287 users following at least 3 traders.

- Most of the content we provide on Twitter often references or mentions GMX. Onboard and spread out GMX to as many people as possible

Protocol Roadmap:

- Integrate GMX v2 - Dec 2023

- Optimize adding the bot to groups - Dec/Jan 2023

- Develop tools on Discord - Jan 2024

- Boost collaboration, connect the bot to various communities - Jan/Feb 2024

Audit History (if any):

N/A

SECTION 5: Data and Reporting

Is your team prepared to create Dune Spells and/or Dashboards for your incentive program?:

- I'm sorry that I can't open source, but I will update the entire development process according to the established roadmap on Twitter as well as the GMX Forum. We can use a multisign wallet to disburse funds in stages

Does your team agree to provide bi-weekly program updates on the GMX Forum thread?:

- Yes, we agree to provide bi-weekly updates on the GMX Forum thread. Additionally, we will regularly update on our Twitter channel. We aim to be transparent with all information for those who follow and use the BOT

Does your team acknowledge that failure to comply with any of the above requests can result in the halting of the program's funding stream?

YES!
