In Season 3, there will be a Grants Council with a Builder's Grants Sub-committee.

- Builders Sub-Committee:
- Focus: maximizing the number of developers building on Optimism
- Non-focus: retroactive funding
- Possible RPFs: prospective builder grants for new projects, hackathons, technical content
- Format: proposers receive grants, suggested to be <50k OP, which are locked for a period of 1-year. If access to upfront capital is a blocker for applicants, Optimism may put them in touch with alternative resources to support teams in this position.
- Budget: 850k OP / Season
- Reviewers: 3 (see below)
- Consensus: 2/3 vote required to fund a grant
- Focus: maximizing the number of developers building on Optimism
- Non-focus: retroactive funding
- Possible RPFs: prospective builder grants for new projects, hackathons, technical content
- Format: proposers receive grants, suggested to be <50k OP, which are locked for a period of 1-year. If access to upfront capital is a blocker for applicants, Optimism may put them in touch with alternative resources to support teams in this position.
- Budget: 850k OP / Season
- Reviewers: 3 (see below)
- Consensus: 2/3 vote required to fund a grant

Please leave your suggestions for the types of grant proposals you'd like to see submitted to the Builders sub-committee in Season 3 and/or any suggested proposal guidelines for these types of grants .

The Council should use this as an input into any Requests for Grants and/or guidelines they put in Season 3.
