TECHNICAL GRANT APPLICATION - WEB3 Game

Rocket - TIER 1

APPLICATION INTRODUCTION

We found https://philand.xyz/ startup and they had raised capital few days ago. The world of games is back again. Our goal is to create a simple game for all users, marketplace of items and earnings system. We already have a community in eastern Europe and Southeast Asia

The basic idea is that we sell rockets at the launch of the game, and you move around the planets. Every time you can buy fuel tanks, the flight range depends on it. Also, at each stop - in our case, this is a planet, buy your own gas station, and receive income from it. Users can sell and buy fuel, rockets, tanks
