Proposing funding

Formatting theproposal.json

Below is an example of aPGFProposal that a governance participant could submit.

{ "proposal" : { "id" :

1 , "content" : { "title" :

"Stewie for Steward 2024" , "authors" :

" " , "discussions-to" :

"forum.namada.net/t/stewies-manifesto/1" , "created" :

"2024-01-01T00:00:01Z" , "license" :

"MIT" , "abstract" :

"Stewie is running for steward, with a focus on technical research. The technical research I will be focused on will definitely not be for weapons of mass destruction. There is some possibility however that I may be focusing somewhat on open source software for weapons of mass destruction." , "motivation" :

"Nobody knows technical research better than me. Trust me. I know it. I have the best technical research. I will be the best steward. Last night, Namada called me and said, Stewie, thank you. I will make public goods funding great again" , "details" :

"As a genius baby, I possess an unmatched level of intelligence and a visionary mindset. I will utilize these qualities to solve the most complex problems, and direct public goods funding towards weapons of mass destruction ... i mean open source software for weapons of mass destruction" } , "author" :

"stewie" , "voting_start_epoch" :

3 , "voting_end_epoch" :

6 , "grace_epoch" :

12 } , "data" : { "continuous" : [{ "target" : { "amount" :

420 , "address" :

"" } , "action" :

"add" }] , "retro" : [{ "target" : { "amount" :

1337 , "address" :

"" } }] } } whereshould be changed to the address of the recipient of the funds.

Save this file asPGF_proposal.json to some memorable path on your machine.

Submitting the proposal

In order to submit the proposal, the governance participant can use the following command:

namada

client

init-proposal \ --pgf-proposal \ --data-path

PGF_proposal.json The proposal will then be given aproposal-id which can be used to query the proposal.

Querying the proposal

The command for querying the proposal is as follows:

namada

client

```
query-proposal \ --proposal-id
```

< the-proposal-i d
