Note:

My Transparency Reports and other projects I've been working on are not intended to replace the Transparency Report from AIP-121, but instead offer a way to begin looking deeper into the AIP process in ways we have not really done in the past.

From what I understand, the reports mentioned in AIP-121 deal with the funding side of things, which the DAO Administrator handles.

My reports are more from the community side to better understand where AIPs are at in the process, track AIP milestones to see if work listed in AIPs is being completed, and share these updates with the community.
