Hi, SparkDAO community

.

Certora team is here. Nice to e-meet everyone.

For those who aren't familiar with us. Certora is a Web3 security company, founded in 2018 by Mooly Sagiv, a professor of computer science at Tel Aviv University.

Certora provides industry-leading formal verification tools and smart contract audits.

For the next 6 months, we will be doing executive spells code review to support the decentralization and security of the governance process.

Posts from this account represent the official Certora professional stand. Any other account claiming to come from Certora isn't valid unless verified through this account.

We're happy to be a part of this community and hope for productive and useful cooperation for everybody.

Sincerely yours,

Certora team
