As we venture ever so deeper into using TEEs for MEV applications, we come across a multitude of questions.

How should MEV apps running in TEEs communicate with the outside world?

What good is censorship resistance in the context of MEV and TEEs?

What should come with a TEE box, and how should MEV apps interact with TEE-specific features?

Join us and our special guest [@dmarz](https://) in discussion of those and more on 2024-06-25T15:00:00Z
