Quickstarts

Select your preferred quickstart style to begin your journey. Our collection of quickstarts will guide you through creating your first developer-controlled wallet and transferring tokens on-chain.

Interactive Quickstart (Recommended) Build your first developer-controlled wallet(s), without writing (nearly) any code. GET STARTED ## Quickstart Guides Use our step-by-step guide to setup your local environment and make API calls. GET STARTED .card-container { display: grid; grid-template-columns: repeat(2, 1fr); grid-column-gap: 30px; grid-row-gap: 2px; margin-left: auto; margin-right: auto; font-family: Circular, sans-serif; }

```
.card-container a {
 color: transparent;
}

   .action-card {
      display: flex;
      gap: 0 24px;
      padding: 24px;
